## **Construction Notice I-19 Eastbound Frontage Road: Canoa Road to Continental Road**

The Pima County Department of Transportation, the Arizona Department of Transportation, the Regional Transportation Authority, and their contractor Borderland Construction Company, Inc. will begin the I-19 Eastbound Frontage Road improvement project from Canoa Road to Continental Road. The construction of this project begins late July 2009 and is expected to be complete in 16-18 months (weather permitting).

Beginning Monday, August 3, 2009, the I-19 northbound off-ramp to Continental Road will be closed for approximately eight (8) months. The detour will allow for the construction of the braided ramp bridge and retaining walls.

Motorists will need to use the Canoa Road exit and travel north on the west frontage road to Continental Road or exit at Esperanza Road and return southbound on I-19 to Continental Road. Continental Road will remain open and all businesses will be accessible at all times. Motorists should drive with caution and obey all detours and speed limits through the work zone.

The improvements consist of constructing a continuous two-lane frontage road between Canoa Road and the Continental Interchange with new signalization and road widening at Continental Road, along with drainage improvements (new bridge structures), 4-foot paved shoulders, landscaping and public art.

For information on this improvement project, contact Louie Gonzales or Annabelle Quihuis, Pima County Department of Transportation at 520-740-6410 or visit the project website at [www.roadprojects.pima.gov/I19Frontage/](http://www.roadprojects.pima.gov/I19Frontage/)

Thank you for your patience and cooperation.

Sincerely,  
The Project Team
